

Products & Services Update

April 30, 2019

TO: All Members

SUBJECT: Collateral Detail Report Now Available in Excel

FHLBank Pittsburgh is pleased to offer an Excel-based version of the Collateral Detail Report in Bank4Banks®. This frequently used report provides members with comprehensive collateral information, including CUSIP-level detail for any securities pledged. The Excel version of the report allows members to view/use this data in a more flexible format than the PDF version.

The Excel-based Collateral Detail Report is available on the Bank4Banks Collateral Home page, just below the PDF option. Monthly reports for the Excel version will be available beginning with the April 30, 2019, report.

For questions, or to provide suggestions on how we can better share data and information with our members, please contact the Bank at 800-288-3400, option 2.
